GLOBAL COMPETENCE MATRIX

Global Competence is the capacity and disposition to understand and act on issues of global significance.

| INVESTIGATE THE WORLD | RECOGNIZE PERSPECTIVES | COMMUNICATE IDEAS | TAKE ACTION |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Students investigate the world beyond their immediate environment. | Students recognize their own and others' perspectives. | Students communicate their ideas effectively with diverse audiences. | Students translate their ideas and findings into appropriate actions to improve conditions. |
| Students: | Students: | Students: | Students: |
| Identify an issue, generate a question, and explain the significance of locally, regionally, or globally focused researchable questions. Use a variety of lan- | their own perspective how diver explain the significance on situations, events, issues, or phenoment or globally focused en and identify the esearchable questions. | Recognize and express how diverse audiences may perceive different meanings from the same information and how that affects communication. | Identify and create opportunities for personal or collaborative action to address situations, events, issues, or phenomena in ways that improve conditions |
| guages and domes- tic and international sources and media to identify and weigh relevant evidence to address a globally significant researchable question. | Examine perspectives of other people, groups, or schools of thought and identify the influences on those perspectives. Explain how cultural interactions influence | Listen to and communicate effectively with diverse people, using appropriate verbal and nonverbal behavior, languages, and strategies. Select and use appropriate technology and | Assess options and pla actions based on evi- dence and the poten- tial for impact, taking into account previous approaches, varied per spectives, and potentia consequences. |
| synthesize evidence is collected to construct in coherent responses to globally significant researchable questions. | situations, events, issues, or phenomena, including the development of knowledge. Articulate how differential access to knowledge, technology, and resources affects quality of life and perspectives. | media to communicate with diverse audiences. Reflect on how effective communication affects understanding and collaboration in an interdependent world. | Act, personally or collaboratively, in creative and ethical ways to contribute to improvement locally, regionally, or globally and assess the impact of the actions taken. |
| | | | ity to advocate for and contribute to improve- ment locally, regionally, or globally. |

The Global Competence Matrix was created as part of the Council of Chief State School Officers' EdSteps Project in partnership with the Asia Society Partnership for Global Learning.
